SUMMARY

I am a Front-End Web Developer with specialized expertise in React JS and Next JS development. Upon receiving a Figma design, I am capable of transforming it into a fully responsive website, ensuring that the final product is pixel-perfect and styled using Tailwind CSS. I possess a strong focus on optimizing web performance to enhance the user experience and guarantee fast loading times. In addition to my front-end development skills, I also have foundational experience in graphic design, which enables me to proficiently edit images, logos, videos, banners, posters, and business cards.
